TO WHOM IT MAY CONCERN

13th October 2014

This serves to confirm that the abovementioned Management Consulting Practice has been retained by:

Benco Machines c.c.

To assist with the implementation of 9001:2008 Quality Management System to enable them to become a certified organization.

As the organization has commenced with documenting and implementing the QMS on their own we are satisfied that to upgrade the current system and completely formalize the QMS by conducting internal audits, training of personnel with regards to their functions, responsibilities and authorities and conducting a Management Review would not be time consuming.

We have been in contact with the Certification Body of choice, TUV and the Stage One audit has been tentatively confirmed for 05th December 2014.

If any further information is required in this regard please do not hesitate to contact the undersigned.

Yours faithfully

Ian M Maclean
